	<p>Children have lots of opportunities to explore using paint, crayons, textiles etc. They are encouraged to experiment with colour and shape and are encouraged to improve their ideas and share their work with others.</p>	<p>Children start to understand how ideas are developed through processes. They build up resilience to getting things wrong and persevering. They practise and share their learning with others.</p>	<p>Children start collecting and developing ideas using sketchbooks. They continue to build up resilience, making mistakes and suggesting improvements. Children practise and share their learning and skills with others, giving and receiving feedback to improve.</p>	<p>Children start collecting more information and resources to present in sketchbooks. They continue to build their knowledge of techniques by experimenting and predicting what might happen. 	<p>Children have opportunities every day to express themselves through drawing. They experiment with different types of pencils, wax crayons, chalk and pens</p>	<p>Children begin to explore different techniques involved in drawing such as shading, thick and thin lines, patterns and shapes as well as using different surfaces to draw on. Children are also exposed to using different materials to draw with such as pencils, felt tips, charcoal, crayons, chalk and pastels.</p>	<p>Children develop their knowledge of drawing by continuing to use a variety of drawing tools from KS1. They are introduced to new ways of making effect through tone, texture, light and shadow. They have the opportunity to use vocabulary learned in KS1 accurately, e.g. shading, thick and thin.</p>	<p>Children continue to use a variety of drawing tools but are introduced to new techniques, e.g. creating perspective. They become more confident in techniques already learned and use the vocabulary learned accurately, e.g. shading, thick and thin. Children will rely on their sketching books to improve their drawing skills.</p>
